

JOB OFFER

CALIBRATION ENGINEER (F/M/D)

FULL TIME / PROFESSIONAL EXPERIENCE

In this role, you will be responsible for optimizing the calibration of batteries. Your goal is to ensure that all target criteria are met, and that the battery operates at full efficiency under all operating conditions. You are the right one for this job – then join our team now!

YOUR TASKS

- › Planning and execution of battery development programs
- › Participation in the development of new BMS functionalities and calibration data sets
- › Analysis of the results of project-specific functions and parameters of the BMS
- › Support during commissioning and implementation in various customer projects
- › Close cooperation and coordination with customers as well as with internal departments

YOUR PROFILE

- › Completed technical education (HTL/FH/Uni) with focus on mechatronics, electronics, informatics etc.
- › Professional experience in BMS development or in a similar environment
- › Ideally experience with communication interfaces in the automotive industry
- › Good knowledge of German and English
- › You have a keen perception as well as an analytical and solution-oriented mindset
- › You enjoy working in a team, you actively push things forward and you are a communicative person

WE OFFER

- › Extensive onboarding including buddy program and meet & greet with the managing directors
- › Agile, modern and dynamic working environment with a "you" culture and scope for developing own ideas
- › Flexible working hours and home office days by arrangement
- › Congestion-free travel and parking with free charging for e-cars
- › Coffee bar and canteen as well as a sunny (roof) terrace
- › Health@Kreisel: company doctor, fitness area, sports pool and much more

Interested? Then we look forward to receiving your application! The minimum salary for this position is € 42,000.00 per year. How much you actually earn will be agreed with you individually and depends on your skills and experience.
