

JOB OFFER**MECHATRONICS ENGINEER (F/M/D)**

FULL TIME / YOUNG PROFESSIONAL

You are the central contact person when it comes to electrical and electromechanical components and play a significant role in shaping them. You shine not only with your technical understanding, but also with your commitment and your drive to actively push things forward. Interested? Then apply now!

YOUR TASKS

- › Definition of requirements for and selection of electrical and electromechanical components
- › Development of test specifications and validation of new components
- › Standardization of components and component combinations as well as the development of the corresponding documentation
- › Regular coordination with our purchasing department and suppliers
- › Active market observation as well as recording of new technologies and trends

YOUR PROFILE

- › Whether you have a degree from a technical college, FH or university in the field of mechatronics, electrical engineering, electronics or similar, you are very welcome!
- › You already have some work experience? - Excellent, but not a must!
- › Good German and English skills
- › Your passion for technology and your motivation to learn new things are what make you stand out
- › You have team spirit, are reliable and you like to actively push things forward

WE OFFER

- › Extensive onboarding including buddy program and meet & greet with the managing directors
- › Agile, modern and dynamic working environment with a "you" culture and scope for developing own ideas
- › Flexible working hours and home office days by arrangement
- › Congestion-free travel and parking with free charging for e-cars
- › Coffee bar and canteen as well as a sunny (roof) terrace
- › Health@Kreisel: company doctor, fitness area, sports pool and much more

Interested? Then we look forward to receiving your application! The minimum salary for this position is €37,800.00 per year. How much you actually earn will be agreed with you individually and depends on your skills and experience.
